

Slicing - Bacon

With an impressive slicing range, Munkfors can assure you perfect bacon slices every time. Perfected bevels, high initial sharpness and a long edge retention, gives you a long-lasting blade with low friction and no sticking-issues.

Munkfors Bacon Slicer Smooth (2+1)

A smooth blade for bacon slicing, with two bevels on one side and one on the other. Customized angles are available.

| Available dimensions (mm) | Smooth | Toothed | Available dimensions (inch) |
|---------------------------|--------|---------|-----------------------------|
| 12.5 x 0.50 | ● | ● | 1/2 x .020 |
| 16 x 0.50 | ● | ● | 5/8 x .020 |

Munkfors Bacon Slicer Toothed (2+1)

A micro-toothed slicing blade perfected for bacon slicing, with two bevels on one side and one on the other. Variable angles are available. As an option we can also offer our optimized version for extra sharpness and longer lifetime.
